

New intermodal services 2015

Malmö Hamn Kombi, CMP–Stockholm Årsta

Green Cargo is the only rail operator in Sweden with a nationwide railway network. We serve 270 locations in Sweden and the main destinations in Norway. 40 of these locations are equipped to handle Intermodal units. Green Cargo is a reliable carrier and a cost efficient alternative for Intermodal transports. Combined with our offer by road we can also provide transfer to and from the railway.

The most punctual rail freight carrier in Sweden

We have an on-time performance within the hour of approximately 95 percent. According to the Swedish Transport Administration's statistics, our rail punctuality is about 11 percentage points higher than the average for our six largest competitors.

A safe choice for the environment

We are the only nationwide approved as a Bra Miljöval (Good Environmental Choice) freight carrier, by the Swedish Society for Nature Conservation. Our customers are the pacesetters.

Can we help?
