

## Norra Hamnen – state-of-the art logistics hub

Thanks to our strategic location in the Öresund region, CMP's facilities function as a logistics hub for international companies for whom Malmö is the reloading point for cargo destined for different parts of northern Europe. Our combi terminal in Norra Hamnen has excellent intermodal solutions. Rail, marine and truck traffic is linked to increase the speed and cost effectiveness of freight handling.

### High accessibility

- High degree of flexibility – offering transport services "twentyfourseven"
- High access to the national railway system and the regional switch yard
- Daily north- and southbound railway departures secure high availability
